BEN KERN

vita

BEN KERN was born and raised in Germany.

After completing his studies with honors and traveling the US and Canada for a while, he worked for renown beauty and fashion photographers and evolving his passion for light and colors. In 2020 he started working on his own. With empathy and benevolence he is able to build an intimate connection to the person in front of the camera and lead the viewer into a sensual, honest visualization of the singularity of each individual.

His photographic style is characterised by unusual perspectives and an unseen, discreet intimacy.
