## JIM GRAMMING

vita

Growing up in a home filled with art, film, and photography, Jim's childhood was a canvas of creativity. With parents who crafted documentaries and art films.

Born in Berlin, Jim's journey has been anything but ordinary. From living in Canada to wandering the globe with his camera, every step shaped his deep love for photography.

After years of exploring, he's now returned to the countryside near Berlin, embracing the peace of nature and the joys of country life. For Jim, inspiration comes from the beauty of light, the power of poetry, and the depth of raw emotion.

His work is an extension of who he is: vibrant yet intimate, full of life but never losing sight of the quiet moments. What really sets Jim apart is his energy. He's one of those people who lights up a room with positivity and drive, making him not just a brilliant creative but also a team player you can count on. For him, it's never just about the work—it's about creating something meaningful together.currently living in Hamburg.
