JIM GRAMMING

photographer / director / dop

vita

Jim grew up surrounded by art, film, and photography as his parents are artists who created documentaries and art films. For this reason, he grew to value aesthetics and creative pursuits. Born in Berlin, Jim lived in Canada and travelled the world before he became a photographer in Germany.

Moving images also became more and more important to his work. His films and photos impress by the fantastic use of light, rhyme, emotions and creativity. Jim is currently living in Hamburg.
